Donna Forstrom started the meeting with an overview of Clayton's Lesson and a brief history on the formation of the coalition. Clayton's Lesson began when students at Oliver Springs High School began wearing t-shirts with the superman emblem in honor of Clayton. Donna saw the student's passion and used this to create Clayton's Lesson by having t-shirts professionally made with the superman emblem as well as the words, "Clayton's Lesson". The bittersweet lesson that we learned from Clayton's passing is to not do drugs.

Following Donna's presentation, Nathan Wray presented a slideshow entitled, "Celebration of Success" which included an overview of RCADC's activities from 2018. The slideshow is below these minutes on the website. Sarah Harrison also provided participants with an Annual Report from fiscal year 2018. Some highlights of the report were: 1,279.8 pounds of medication were collected in Roane County, 107 presentations were given reaching 5,556 community members, and 33,871 substance abuse prevention materials were disseminated in the community. The Annual Report is also on the website below the minutes.

The meeting concluded as there was no new business.

The next coalition meeting will be held on Wednesday, January 2, 2019 at 12:00 p.m. at the RCADC office.
