· Weekly Non-denominated Church Services

Overview: The 42 residential treatment unit is a 24/7 clinic that provides respite, detoxification and therapeutic treatment services. It is specifically designed for individuals who require around-the-clock care. The structured environment assists clients with re-establishing a healthy routine. Lectures provide information on the disease model of addiction, shame, anger, relapse, addiction and recovery process, among other topics. The program provides a balanced environment in which those suffering from alcohol or drug addiction can learn about themselves and their disease, learn new behaviors and receive tools to aid in overcoming addiction and regaining health, wholeness and hope for the future.

Overview: The adolescent center is a full service treatment facility that has been helping boys and girls since 1988. Based on the adolescent's substance abuse history and severity of problems, each child is assessed prior to admission to determine the appropriate level of care. Family members are also involved in the assessment.

SUBOXONE is the first opioid medication approved under DATA 2000 for the treatment of opioid dependence in an office-based setting. SUBOXONE also can be dispensed for take-home use, just as any other medicine for other medical conditions.

The primary active ingredient in SUBOXONE is buprenorphine.

Suboxone at the appropriate dose may be used to reduce illicit opioid use and help patients stay in treatment by suppressing symptoms of opioid withdrawal and decreasing cravings for opioids

The following is a list of physicians in the East Tennessee area that are certified to treat with Suboxone. For more information, please visit www.suboxone.com
